PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in data analysis, quality/process data validation, dashboard development, and reporting. Currently supporting BOP Quality operations at Exide Industries, working with SAP S/4HANA and real-world manufacturing and quality data to identify discrepancies and drive corrective action. Skilled in SQL, Python, Power BI, and Excel, with a track record of building dashboards, performing exploratory data analysis, and turning raw data into clear, actionable insights.

TECHNICAL SKILLS

Data Analytics: Data Analysis, Data Cleaning, Data Validation, KPI Analysis, Trend Analysis, Data Reporting

SQL & Databases: SQL, MySQL, SQL Server, SSMS, Joins, Aggregations

Python: Python, Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook, Exploratory Data Analysis (EDA)

BI & Visualization: Power BI, Power Query, DAX, Data Modeling, Dashboard Development

Excel: Microsoft Excel, Pivot Tables, Data Cleaning, Formulas, Reporting

SAP / ERP: SAP S/4HANA, SAP QM, Inspection Lots, Incoming Inspection, Goods Receipt, Quality Data Management

Tools & Version Control: Git, GitHub, VS Code

PROFESSIONAL EXPERIENCE

Data & Quality Analytics — BOP Quality

Exide Industries Limited | Incoming Quality / Quality Operations

- Analyzed and validated BOP incoming-quality and inspection data to identify discrepancies, rejection trends, and process-level issues.
- Leveraged SAP S/4HANA quality and material data to support inspection workflows, data verification, and accurate quality reporting.
- Prepared and reviewed quality reports from operational data to support KPI monitoring, PPM and trend analysis, and data-driven follow-up actions.
- Validated PDI, material, and quantity-related records, investigating mismatches to ensure data integrity and support quality decision-making.
- Partnered with suppliers and cross-functional teams to resolve quality-related data discrepancies and inspection findings, driving timely issue closure.

PROJECTS

Credit Card Report Dashboard

Power BI | Power Query | DAX | Data Visualization

- Built an interactive Power BI dashboard analyzing credit-card customer and transaction data to surface key business KPIs for stakeholder decision-making.
- Performed data preparation and transformation and created DAX measures and interactive visuals to support trend and customer-segment analysis.

HR Analytics Dashboard

Power BI | Power Query | DAX | Data Visualization

- Developed an HR analytics dashboard to track employee KPIs, delivering interactive views into workforce composition and attrition trends.
- Modeled and transformed HR data, applying Power BI visualizations and measures to uncover patterns across employee dimensions.

Swiggy Data Analysis

SQL Server | SSMS | SQL

- Conducted SQL-based analysis of restaurant and order data — using filtering, joins, and aggregations — to answer key business questions.
- Extracted and summarized data in SQL Server Management Studio to derive actionable insights from order-level information.

Customer Churn Analysis

Python | Jupyter Notebook | Pandas | NumPy | Matplotlib | Seaborn

- Performed exploratory data analysis on customer churn data using Python, Pandas, and NumPy to clean, transform, and analyze the dataset.
- Built Matplotlib and Seaborn visualizations to identify churn patterns and relationships across customer attributes, informing retention insights.

EDUCATION

PG Diploma in Advanced Computing (C-DAC)

Mar 2023 – Sep 2023

Mumbai Educational Trust, MET League of Colleges

Bachelor of Engineering (B.E.) — Mechanical Engineering

Aug 2018 – Nov 2022

Gokhale Education Society's R.H. Sapat College of Engineering, Nashik

LANGUAGES & STRENGTHS

Languages: English | Hindi | Marathi

Key Strengths: Strong analytical and logical problem-solving skills; quick learner and adaptable to new tools; clear communicator with strong cross-functional collaboration; committed to data accuracy, clean process, and best practices.
